DETAILED ACTION

Claim Rejections - 35 USC § 102

1. Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith 5,015,016. Smith shows an undersea hydraulic coupling member having a tail 74, at least one substantially rigid positioning member 26 associated with the tail, wherein the substantially rigid positioning members are in contact with the inner bore 73 of a manifold plate when the tail is inserted through the manifold plate (figure 1).

As concerns claims 2 & 8, Smith shows the substantially rigid positioning member is an o-ring 26.

As concerns claims 3 & 9, Smith shows the substantially rigid positioning member is elastomeric.

As concerns claim 4, Smith shows a retaining ring to attach the hydraulic coupling member to the manifold plate.

As concerns claim 5, Smith shows the retaining ring is held in place with a snap ring 55 contained in a groove in the tail.

As concerns claim 6, Smith shows the tail has at least two grooves for containing the snap ring to accommodate manifold plates of different thicknesses (figure 3).

Response to Arguments

2. Applicant's arguments filed 03/25/05 have been fully considered but they are not persuasive. Applicant's arguments that 73 or threading cannot constitute a bore are noted; however, not persuasive since a bore may or may not include threads, thus the broadest interpretation of a bore is not preclude Smith '016 from having a bore that includes threads, or as applicant points out that may in fact be smooth while using another fastening means. The claim language of "contact with a bore" in no way precludes anticipating by Smith '016 since it is clearly shown and contemplated "contact with a bore".

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
